Felted Farmyard Friends

1

Roll the wool into a ball, making sure to keep the edges tucked in.

2

Add some soap to your hand and wet the ball of wool with warm water (so it is damp but not dripping).

3

Gently roll the wool between the palms of your hands for 3-5 minutes until the wool has become a solid ball. Ask an adult to help, making sure it is rolled in a tight and compact ball.

4

Use a hand towel to dry the felted ball or use a hair dryer.

5

Using the felt pieces, cut out two ears from each colour (and a nose for the dog).

6

Finally, use white glue to give your Farmyard Friends their faces.
